

Appendix 1 – Overall assessment from the company/laboratory supervisor

Student :	Grade (to be completed by Master Supervisor) / 20
Company supervisor:	

	Very difficult	Difficult	Standard	Easy	
Internship difficulty (topic, methods, tools)					
Evaluation criteria	Exceptional	Very good	Good	Acceptable	Weak
Compliance of constraints (hours, security, ...)					
Team Integration					
Volume of work					
Efficiency in the work					
Theoretical/practical knowledges developed during the internship					
Dynamism/Motivation					
Autonomy/spirit of initiative					
Critical spirit/scientific curiosity					
Written/oral communication					

If the student applied to an employment in your team (consider only one answer):

- ☐ the candidacy would be rejected.
- ☐ the candidacy would be considered as the other candidacies.
- ☐ the candidacy would be considered in priority.

It is obvious that the answer to this question does not constitute any commitment from your company. It is simply, an additional criterion of evaluation of the internship.
